August 25, 2020

Dear Amdocs Ltd.,

Thank you for submitting your greenhouse gas emission reduction target(s) to the Science Based Targets initiative (SBTi) for an official validation.

Our team has assessed your target(s) against the [SBTi criteria \(version 4\)](#) and, after careful review, we are happy to inform you that your submitted target(s) have been approved and the scope 1 and 2 portion of your targets are aligned with a 1.5°C pathway. The ambition of your scope 3 targets has been assessed through the target validation process, although they are not currently classified.

Basic information about your company and the approved target(s) will be listed on the [Science Based Targets website](#). The following agreed target wording will be used:

*Amdocs Ltd. commits to reduce absolute scope 1 and 2 GHG emissions 21% by FY2024 from a FY2019 base year. Amdocs Ltd. Also commits to reduce absolute scope 3 GHG emissions 13% over the same period.*

The SBTi plans to publish your approved target wording and temperature alignment on our website one month from this date, on September 24. Please let the communications team know if your company would like to request a different publication date. The SBTi requires approved target(s) to be published within six months from the date of this official target approval letter, to ensure targets published on the website are in line with the latest SBTi criteria and recommendations.

Congratulations on your approved science-based targets!

Kind regards,

The Science Based Targets initiative's Steering Committee
